

Title of the project		Safety and efficacy of hADSCs isolated from activated adipose tissue in PD animal experimental model	
Responsible of the research	Name	Stephana	
	Surname	Carelli	
GRANT requested to Neurogel en Marche		€	27.212,00
Total costs (euros)		€	87.212,00
Items	cost	costs justification	
Personel already present in the team (payed by UNIMI or PoliMI)	60.000,00	These are costs referred to personel involved in the project (dr. S Carelli and dr. B. Barzaghini)	
New personel (young fellow)	17.412,00	A young scientist will be enrolled and will be 100% dedicated to the project	
Animals	1.800,00	60 animals will be used in this project (10 animals per group; 6 groups)	
Gene expression studies	2.500,00	Solutions for Real times	
Chemicals and solutions	1.000,00	Any chemicals for the project (i.e. anaesthetic for mice surgery; physiologic solution; salts for buffers preparation)	
Disposable materials	2.000,00	Disposable materials for tissue culture and surgery	
Reagents for Cells isolation and expansion	1.500,00	Solutions for hADSCs isolation; Media and serum for cell culture; PBS; Nichoids	
Immunocytochemistry	1.000,00	Antibodies and materials for immunofluorescence	
TOTAL	87.212,00		

27.212,00
